

DEALER NEW PRODUCT ANNOUNCEMENT AQUARITE® 900 SERIES

AquaRite 900
(Available in 40,000 and 25,000 gallon models)

Extended Life TurboCell
(Available in 40,000 and 25,000 gallon models)

The AquaRite 900 line of salt chlorination systems feature an Extended Life TurboCell and are part of the new Expert Line of products which are not available for internet resale.

The Extended Life TurboCell® produces 25% more chlorine over its lifetime than the industry-leading Hayward TurboCells, and the entire system features an industry-best 4-year limited warranty.

Features

- 25% greater total chlorine output over its lifetime than the leading Hayward TurboCells
- TurboCells compatible with previously sold Hayward salt chlorination and automation systems*
- Available in two unique bundles:
 - **AQR940** – Controller and TCELL940 for pools up to 40,000 gallons
 - **AQR925**– Controller and TCELL925 for pools up to 25,000 gallons

Benefits

- Consumers get the economic benefit of even more cost-effective chlorination.
- Deliver greater value to your customers when they need a replacement cell.
- Pool owners get the same robust, time-tested AquaRite controller, but with the new Extended Life Cell.

*TCELL925 minimum software requirements include AquaRite 1.5, AquaRite Pro 1.10, AquaPlus & ProLogic 4.10

Comparison Chart: Standard vs. Extended Life TurboCells

Cell	Pool Size Rating	Total Pounds of Free Chlorine Produced (as Trichlor)
Extended Life Cell TCELL940	40,000 gallons	725 lbs.
Hayward T-CELL-15	40,000 gallons	580 lbs.
Extended Life Cell TCELL925	25,000 gallons	480 lbs.
Hayward T-CELL-9	25,000 gallons	385 lbs.
